In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life nourishment or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

This treatise was written about 400 A.D. Concerning it Aug. in *Retract.* Book II. c. xviii., says: I have written seven books on Baptism against the Donatists, who strive to defend themselves by the authority of the most blessed bishop and martyr Cyprian; in which I show that nothing is so effectual

for the refutation of the Donatists, and for shutting their mouths directly from upholding their schism against the Catholic Church, as the letters and act of Cyprian. Aeterna Press

The Acts of the Apostles is the second volume in the two-part writing scholars call Luke-Acts. It continues the story begun in the Gospel of Luke, showing how the Good News offered by Jesus was eventually extended to the end of the earth, so that Gentiles as well as Jews came to share in the blessings of God. This commentary treats Luke-Acts as an apologetic history. It takes with equal seriousness Luke's literary artistry and his historical interests, fitting his methods comfortably within the ancient standards of historiography. This perspective illustrates in particular that Luke's historical narrative serves a definite religious intent. Tracing that intent through the specific contours of Luke's story is the special contribution of this commentary.

Essentials in Church History is a religious text by Joseph Fielding Smith. It presents the history of The Church of Jesus Christ of Latter-day Saints, also known as Mormon history. An illuminating read for anyone interested.

"A Michael Glazier book." Includes bibliographical references (p. [18]-21) and indexes.

Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James

She wants faith, hope, and love. She wants help and healing. She wants to hear and be heard, to see and be seen. She wants things set right. She wants to know what is true—not partly true, or sometimes true, or almost true. She wants to see Truth itself, face-to-face. But here, now, these things are all cloudy. Hope is tinged with hurt. Faith is shaded by doubt. Lesser, broken things masquerade as love. How does she find something permanent when the world around her is always changing, when not even she can stay the same? And if she finds it, how does she hold on? She Reads Truth tells the stories of two women who discovered, through very different lives and circumstances, that only God and His Word remain unchanged as the world around them shifted and slipped away. Infused with biblical application and Scripture, this book is not just about two characters in two stories, but about one Hero and one Story. Every image points to the bigger picture—that God and His Word are true. Not because of anything we do, but because of who He is. Not once, not occasionally, but right now and all the time. Sometimes it takes everything moving to notice the thing that doesn't move. Sometimes it takes telling two very different stories to notice how the Truth was exactly the same in both of them. For anyone searching for a solid foundation to cling to, She Reads Truth is a rich and honest Bible-filled journey to finally find permanent in a world that's passing away.

Do you ever feel powerless? Acts is the extraordinary record of what the early Christian disciples did. The power that you see in action in this book is the same power that can transform your life. As Phyllis J. Le Peau leads you through the pages of Acts, you will begin to understand what the Holy Spirit can do in you and in the world.

This St. Andrew's Expository Commentary from theologian-preacher R. C. Sproul offers application and pastoral wisdom to the story of the gospel spreading to the nations.

Abstract theology is overrated, for God can be found in even the most ordinary of things. Jesus used things like a lily, sparrow, and sheep to teach about the kingdom of God. And in the Old Testament, God repeatedly describes himself and his saving work in relation to physical things such as a rock, horn, or eagle. In God of All Things, pastor and author Andrew Wilson invites you to rediscover God in this way, too--through ordinary, everyday things. He explores the idea of a material world and presents a variety of created marvels that reveal the gospel in everyday life and fuel worship and joy in God--marvels like: Dust: the image of God Horns: the salvation of God Donkeys: the peace of God Water: the life of God Viruses: the problem of God Cities: the kingdom of God God of All Things will leave you with a deeper understanding of Scripture, the world you live in, and the God who made it all.
