ENCYCLOPEDIA OF GOVERNMENT AND POLITICS

Government, the political system by which a country or a community is administered and regulated. Read more in this article about the forms and historical development of governments in the societies of the West from ancient times to the 21st century.

government | Definition, History, & Facts | Britannica

Political science, the systematic study of governance by the application of empirical and generally scientific methods of analysis. As traditionally defined and studied, political science examines the state and its organs and institutions. The contemporary discipline, however, is considerably broader than this, encompassing studies of all the societal, cultural, and psychological factors that mutually influence the operation of government and the body politic.
