This book is about enforcing privacy and data protection. It demonstrates different approaches - regulatory, legal and technological - to enforcing privacy. If regulators do not enforce laws or regulations or codes or do not have the resources, political support or wherewithal to enforce them, they effectively eviscerate and make meaningless such laws or regulations or codes, no matter how laudable or well-intentioned.

Enforcing Privacy - Regulatory, Legal and Technological ...
This is because enforcement, as the editors explain, is the process of "[translating] a set of legal standards designed to influence human and institutional behaviour into social reality". 5 Theorists want to identify the privacy problems and want to know how best to create and craft the legal standards. Practitioners want to know whether and how the enforcement will work and what the ...
