Anybody who was expecting some relationship between this book and the popular anti-cuts website 'false economy' will be sadly disappointed. This is a totally unsurprising remix of economic orthodoxy (free trade is always good, you can't buck the market, government intervention will always go wrong), nicely illustrated with some very partial anecdotes from history.

**Summary of Alan Beattie's book, False Economy**

But despite the heady subject matter, False Economy is a lively and lucid book that engagingly and thought-provokingly examines macroeconomics, economic topics, and the fault lines and successes that can make or break a culture or induce a global depression. Along the way, readers will discover why Africa doesn't grow cocaine, why our asparagus comes from Peru, why our keyboard spells QWERTY, and why giant pandas are living on borrowed time.
