My name is Harriet Manners and I'll be a geek forever... The FINAL book in the bestselling, award-winning GEEK GIRL series is here!

"My name is Harriet Manners, and I am still a geek." MODEL MISFIT is the sequel to award-winning No. 1 UK debut GEEK GIRL.

When she is accidentally discovered by a modeling agent, fifteen-year-old Harriet jumps at the chance to transform herself from a geek to a fashion model.

You can make a geek a model, but you can't make her chic. More hilarity and high fashion await in the second book in the internationally bestselling Geek Girl series! Harriet Manners is a model—but she feels even less popular and more awkward than she did when she was just a geek. So a summer modeling job in Japan sounds like the perfect vacation, even if she has to bring along her crazy grandma Bunty, and even if she might run into Nick, her gorgeous supermodel ex-boyfriend. No one is going to ruin Harriet's fabulous Tokyo adventure—unless she accidentally ruins it herself. . . . This sequel to Holly Smale's #1 bestselling debut novel, Geek Girl, is perfect for fans of Mag Cabot's Princess Diaries series and Louise Rennison's Georgia Nicolson series.

My name is Harriet Manners, and I will always be a geek. The fifth book in the bestselling, award-winning GEEK GIRL series. Harriet Manners knows almost every fact there is. She knows duck-billed platypuses don't have stomachs. She knows that fourteen squirrels were once detained as spies. She knows only one flag in the world features a building. And for once, Harriet knows exactly how her life should go. She's got it ALL planned out. So when love is in the air, Harriet is determined to Make Things Happen! If only everyone else would stick to the script. Has GEEK GIRL overstepped the mark, and is following the rules going to break hearts all over again?*

My name is Harriet Manners, and I have always been a geek. The fourth book in the award-winning GEEK GIRL series. Harriet Manners knows many things. She knows that toilet roll was invented by the Chinese in 600 AD. She knows that a comet's tail always points away from the sun. And she knows that the average healthy heart beats 70 times per minute. Even when it's broken. But she knows nothing about making new friends at Sixth Form. Or why even her old friends seem to be avoiding her. And she knows even less about being a glittering supermodel success. Which she now is apparently. Has Harriet's time to shine like a star finally arrived, or is she about to crash and burn?*
