The blue catfish is a special freshwater fish in Texas as it is the largest freshwater sport fish known in Texas! It can reach up to 100 pounds and primarily live in large rivers. In the summer they search for cooler water temperatures by swimming upstream and they return downstream in the winter for the warmer waters.

The Texas cichlid is a freshwater fish of the cichlid family. This is the only cichlid species that is native to the United States. The fish, also known as Rio Grande cichlid, originates from the lower Rio Grande drainage in Texas near Brownsville and Northeastern Mexico. *Herichthys cyanoguttatus* can grow to be over 13 in and are differentiated by their distinctive characteristics and specific habitat needs. This cichlid is known for its cream and turquoise spots. Adult males also develop a nuch

~~Texas cichlid - Wikipedia~~

Walleye. Many people call walleye the best-tasting fish in freshwater, although yellow perch should also get the same accolades, as they are a smaller cousin. Most walleye are filleted, but they can be cooked in a variety of ways, including frying, baking, and broiling.
