[How the Internet Happened by Brian McCullough | Audiobook](#)

The internet was not meant for the likes of us/and yet we have it, through means that tech historian McCullough capably recounts in this wide-ranging history of the internet era. It wasn't so long ago that technologists dismissed the thought that ordinary mortals would have a use for a computer and not so long ago that the internet was a skeletal version of its present self, confined to computers administered by the military-industrial complex.

[HOW THE INTERNET HAPPENED | Kirkus Reviews](#)

How the Internet Happened, a new book from Brian McCullough, host of the popular Internet History Podcast, could have been a good venue for a necessary round of mythbusting. Unfortunately, most of the time, it is not. McCullough imagines himself as a neutral filter of information, the type of reporter people are supposed to venerate.
