full-color, hands-on laboratory exercises, along with a built-in Histology Atlas. The Lab Manual can accompany any one-semester A&P text, but it is most effectively paired with Marieb and Keller's Essentials of Human Anatomy & Physiology, 12th Edition. Each lab exercise consists of a variety of easy-to-follow activities, all supported by a checklist of materials, a Pre-Lab Quiz, background information, learning objectives, and tear-out review sheets. The black and white figures in previous editions are now in full-color, and the 7th Edition further expands on its student-friendly writing style with updated terminology and review questions, streamlined content presented in tables, and a new, more intuitive design.

This full-color manual is designed for students with minimal backgrounds in science who are pursuing careers in allied health fields. Designed to support the thirteenth edition of Hole's Essentials of Human A&P by Shier, Butler, and Lewis, this manual contains 49 laboratory exercises and reports, which are integrated closely to the textbook. Exercises are planned to illustrate and review the anatomical and physiological facts and principles presented in the text and to help students investigate some of these ideas in greater detail.
