you red-handed and you have no excuse because I even attended the funeral to be sure that he was truly dead and buried before applying. Attached to my letter is a copy of my CV and his death certificate. Crap CVs is a hilarious compilation of the worst job applications imaginable, including overly-honest cover letters, embarrassing typos, mortifying personal revelations, awkward interview questions, misplaced self-confidence, self-aggrandizing gibberish, blatant truth-twisting and, of course, outright lies.

For sophomore- or junior-level courses in Fluid Power, Hydraulics, and Pneumatics in two- or four-year Engineering Technology and Industrial Technology programs. Fluid Power with Applications, Seventh Edition presents broad coverage of fluid power technology in a readable and understandable fashion. An extensive array of

industrial applications is provided to motivate and stimulate students' interest in the field. Balancing theory and applications, this text is updated to reflect current technology; it focuses on the design, analysis, operation, and maintenance of fluid power systems.

"If I had asked people what they wanted, they would have said faster horses." --Henry Ford As one part of your brain processes these words, another part of your brain is urging you to put the book down and focus on something more pressing. Get back to work on the budget due tomorrow. Answer e-mails growing stale in your inbox. Get off your rear and update that résumé. We're all guilty of it, especially in the business world. From Fortune 500 CEOs to assistants, we work to solve the most urgent problems first. That's

because evolution has hardwired our brains to focus only on the immediate future, a survival technique that worked extremely well when predators were lurking at every turn. But that was then, this is now. In the modern world, where life expectancies are long and physical perils rare (at least for people who buy books), it's not only possible to build a strong tomorrow without sacrificing today, but to actually increase the number of here-and-now victories by pursuing distant wins. That's where Long Fuse, Big Bang comes in--to help you work with that instinct to create and foster ideas that will lead to explosive professional results. Through proven case studies and personal experience, Dr. Eric Haseltine shows you how to neutralize the quick-fix way of thinking and actually use that desire to improve your chances of an enduring success. Rather than fight our most basic thought processes, this book will teach you how to work

with your brain to light the long fuse, keep it smoldering, and ignite that "Big Bang" that will make history.

In this update of the 2000 edition, Fritz, the owner and head instructor of a school of therapeutic massage and bodywork in Michigan, treats touch as a form of communication and expands coverage of ethical and legal issues, contra/indications for massage, and condition assessment and management. The treatment of medical terminology, core principles, and techniques is enhanced by color illustrations, case studies, review questions, resources and other appended information. The first edition was published in 1995. Annotation : 2004 Book News, Inc., Portland, OR (booknews.com).

I'm the guy you call when you need to impress your overbearing family, your boss, or your ex. Yeah, I'm a male escort, but not just any escort, I'm the escort. The one with a mile-long waiting list and a pristine reputation that's very well-deserved. I'm the guy who'll make you feel beautiful, desired, and worshipped . . . all for a steep price. I'm hired to make you shine, and I always deliver. I'll be whatever you want me to be for one night—except my true self. This is just a job, a role I play to earn a paycheck. But I'm not the guy who falls for a client. Not once in six years. And then I meet Elle. Her friend has hired me to escort her to a wedding, but Elle doesn't know we're just pretending. There's a fire between us I never
