advice and guidance from author Ed Sherman, who wrote and teaches the American Boat & Yacht Council's certification program for electrical technicians. In *Powerboater's Guide to Electrical Systems*, he combines basic theory with step-by-step directions for troubleshooting problems, making repairs, and installing new equipment. Learn to Draw up a wiring diagram for your boat Locate and identify wiring and circuit components Select and use a multimeter Choose and maintain battery and marine ignition systems Troubleshoot starting, charging, and instrument problems Install DC and AC marine accessories, equipment, and electronics "Ed Sherman's nationally recognized expertise in electrical systems in boats makes him a natural choice to train and certify marine electricians. . . . He believes, as I do, that doing it right the first time will surely enhance your boating experience."--C. T. "Skip" Moyer III, Past President, American Boat & Yacht Council

"Covers all gasoline engines and drives, including inboards & transmissions."

SELOC Marine tune-up and repair manuals provide the most comprehensive, authoritative information available for outboard, inboard and stern-drive engines, as well as personal watercraft. SELOC has been the leading source of how-to information for the marine industry since 1974. Designed and written to serve the needs of the professional mechanic, do-it-yourself boat enthusiast, instructor and student, these manuals are based on actual teardowns done by Seloc's editors/authors in our on-site facility. Every manual features: -Easy-to-follow, step-by-step, illustrated procedures -Hundreds of exploded drawings, photographs and tables -Troubleshooting sections -Accurate specifications and wiring diagrams Covers all engines and drive units, including transmissions. Includes carbureted and fuel injected engines. Over 1,000 illustrations.
