"A version that has been long awaited, and likely to become the new standard."  
—Michael Dirda, Washington Post Ovid's epic poem—whose theme of change has resonated throughout the ages—is one of the most important texts of Western imagination, an inspiration from Dante's times to the present day, when writers such as Salman Rushdie and Italo Calvino have found a living source in Ovid's work. "Sources and Backgrounds" includes Seneca's inspired commentary on Ovid, Charles Martin's essay on the ways in which pantomimic dancing—an art form popular in Ovid's time—may have been the model for *Metamorphoses*, as well as related works by Virgil, Callimachus, Hesiod, and Lucretius, among others. From the enormous body of scholarly writing on *Metamorphoses*, Charles Martin has chosen six major interpretations by Bernard Knox, J. R. R. Mackail, Norman O. Brown, Italo Calvino, Frederick Ahl, and Diane Middlebrook. A Glossary of Persons, Places, and Personifications in the *Metamorphoses* and a Chronology and Selected Bibliography are also included.

Ovid's *Metamorphoses* is a weaving-together of classical myths, extending in time from the creation of the world to the death of Julius Caesar. This volume provides the Latin text of the first five books of the poem and the most detailed commentary available in English of these books.

The most sophisticated and daring poetic ironist of the early Roman Empire, Publius Ovidius Naso, is perhaps best known for his oft-imitated *Metamorphoses*. But the Roman poet also wrote lively and lewd verse on the subjects of love, sex, marriage, and adultery—a playful parody of the earnest erotic poetry traditions established by his literary ancestors. The *Amores*, Ovid's first completed book of poetry, explores the conventional mode of erotic elegy with some subversive and silly twists: the poetic narrator sets up a lyrical altar to an unattainable woman only to knock it down by poking fun at her imperfections. *Ars Amatoria* takes the form of didactic verse in which a purportedly mature and experienced narrator instructs men and women alike on how to best play their hands at the long con of love. Ovid's *Erotic Poems* offers a modern English translation of the *Amores* and *Ars Amatoria* that retains the irreverent wit and verve of the original. Award-winning poet Len Krisak captures the music of Ovid's richly textured Latin meters through rhyming couplets that render the verse as playful and agile as it was meant to be. Sophisticated, satirical, and wildly self-referential, Ovid's *Erotic Poems* is not just a wickedly funny send-up of romantic and sexual mores but also a sharp critique of literary technique and poetic convention.

"The Medea of Euripides is one of the greatest of all Greek tragedies, and arguably the one that has the most significance for us today. A barbarian woman brought to Corinth and there abandoned by her Greek husband, Medea seeks vengeance on Jason, and is willing to strike out against his new wife and family--even slaughtering the sons she has born him. From the very beginning of the play we are drawn into a world "torn asunder by blind, disruptive forces, which affords no consolation, no compassion for suffering." At its center is Medea herself, a character who refuses definition: is she a hero, a witch, a psychopath, a goddess? All that can be said for certain is that she is a woman who has loved, has suffered, and will stop at nothing for vengeance. In this stunning translation, poet Charles Martin captures the rhythms of Euripides's original text through contemporary rhyme and meter that speaks directly to modern readers. An introduction by classicist and poet A. E. Stallings examines the complex and multifaceted Medea in patriarchal ancient Greece. Perfect in and out of the classroom as well as for theatrical performance, this faithful translation succeeds like no other"--Provided by publisher.

before—sensuous, dangerously witty, audacious—from the fall of Troy to birth of the minotaur, and many others that only appear in the *Metamorphoses*. Connected together by the immutable laws of change and metamorphosis, the myths tell the story of the world from its creation up to the transformation of Julius Caesar from man into god. In the ten-beat, unrhymed lines of this now-legendary and widely praised translation, Rolfe Humphries captures the spirit of Ovid's swift and conversational language, bringing the wit and sophistication of the Roman poet to modern readers. This special annotated edition includes new, comprehensive commentary and notes by Joseph D. Reed, Professor of Classics and Comparative Literature at Brown University.

To be modern is to live not in a single era, but in a churn of new technologies, deep history, myth, literary traditions, and contemporary cultural memes. In *Future Perfect*, Charles Martin's darkly comic new collection, the poet explores our time and the times that come before and after, which we inhabit and cultivate in memory and imagination. Through poems that play with form and challenge expectation, Martin examines the continuities that persist from time immemorial to the future perfect. Sensitive to the traces left behind by the lives of his characters, Martin follows their tracks, reflections, echoes, and shadows. In "From Certain Footprints Found at Laetoli," an ancient impression preserved in volcanic ash conjures up a family scene three million years past. In "The Last Resort of Mr. Kees" and "Mr. Kees Goes to a Party," Martin adopts the persona of the vanished poet Weldon Kees to reimagine his

disappearance. “ Letter from Komarovo, 1962 ” retells the tense real-life meeting between Anna Akhmatova and Robert Frost a year before their nations almost destroyed one another. And in the titular sonnet sequence that ends the book, Martin conjures a childhood in the Bronx under the shadow of the mushroom cloud of nuclear war as the perfected future supplanting the present. Introducing Buck Rogers to Randall Jarrell and combining new translations or reinterpretations of works by Ovid, G. G. Belli, Octavio Paz, and Euripides, Future Perfect further establishes Charles Martin as a master of invention.
