This book explores Japanese investment in Europe and Southeast Asia, in relation to the automobile industry. In Part I the authors examine industrial organization and policy issues in Thailand, Malaysia, The Philippines and Indonesia, looking at Japanese investment and the relative policy successes and failures in these host countries. Part II looks at skill formation systems in the Japanese dominated automobile industry in Southeast Asia and in Part III the authors focus on the EU and the very different influence of Japanese investment.

Culture faces and places may differ as you travel in search of true happiness however jealousy has no colour or creed and can distort the vision of your lover's mind. Is it possible to change your lifestyle and profession or will the change, change you? This all might sound too serious you may think or say but my life has been funny as well as I've travelled a long my way.

The articles by eminent scholars address the forces that tie the region together. They treat topics ranging from Japanese bilateral and multilateral ODA and the activities of state and non-state actors on the regional level to issues such as Japanese multinational corporations, foreign direct investment in Asia, and regional financial institutions. Methodologically, the authors draw on disciplinary strengths in either the social sciences or economics while organizing their treatment around a shared political-economic perspective. By looking at Asia through an interdisciplinary lens, the volume offers something to
