Now that the West is no longer so wild, it's easy to dismiss Buffalo Bill Cody's world-famous Wild West shows as promoters of stereotypes and clichés. But looking at this unique American genre from the Native American point of view provides thought-provoking new perspectives. Focusing on the experiences of Native performers and performances, Linda Scarangella McNenly begins her examination of these spectacles with Buffalo Bill's 1880s pageants. She then traces the continuing performance of these acts, still a feature of regional celebrations in both Canada and the United States—and even at Euro Disney. Drawing on interviews with contemporary performers and descendants of twentieth-century performers, McNenly elicits insider perspectives to suggest new interpretations of their performances and experiences; she also uses these insights to analyze archival materials, especially photographs. Some Native performers saw Wild West shows not necessarily as demeaning, but rather as opportunities—for travel, for employment, for recognition, and for the preservation and expression of important cultural traditions. Other Native families were able to guide their own careers and even create their own Wild West shows. Today, Native performers at Buffalo Bill Days in Sheridan, Wyoming, wear their own regalia and choreograph their own

performances. Through dancing and music, they express their own vision of a contemporary Native identity based on powwow cultures. Proud of their skills and successes, Native performers at Euro Disney are establishing promising careers. The effects of colonialism are undeniable, yet McNenly's study reveals how these Native peoples have adapted and re-created Wild West shows to express their own identities and to advance their own goals.

The Wild West: a term that conjures up pictures of wagon trains, unspoiled prairies, Indians, rough 'n' ready cowboys, roundups, and buffalo herds. Where did this collection of images come from? Paul Reddin exposes the mythology of the American frontier as a carefully crafted product of the Wild West show. Focusing on such pivotal figures as George Catlin, Buffalo Bill Cody, and Tom Mix, Reddin traces the rise and fall of a popular entertainment shaped out of the "raw material of America." Buffalo Bill and other entertainers capitalized on public fascination with the danger, heroism, and courage associated with the frontier by continually modifying their presentation of the West to suit their audiences. Thus the Wild West show, contrary to its own claims of accuracy and authenticity, was highly selective in its representations of the West as well as widely influential in shaping the public image of life on the Great Plains. A uniquely American entertainment--colorful, energetic, unabashed, and, as Reddin demonstrates, self-made--the Wild West show exerted an appeal that was all but irresistible to a public hovering uncertainly between industrial progress and nostalgia for a romanticized past.

For more than a century, trading posts in the American Southwest tied the U.S. economy and culture to those of American Indian peoples—and in this capacity, Hubbell Trading Post, founded in 1878 in Ganado, Arizona, had no parallel. This book tells the story of the Hubbell family, its Navajo neighbors and clients, and what the changing relationship between them reveals about the history of Navajo trading. Drawing on extensive archival material and secondary literature, historian Erica Cottam begins with an account of John Lorenzo Hubbell, who was part Hispanic, part Anglo, and wholly brilliant and charismatic. She examines his trading practices and the strategies he used to meet the challenges of Navajo exchange customs and a seasonal trading cycle. Tracing the trading post's affairs through the upheavals of the twentieth century, Cottam explores the growth of tourism, the development of Navajo weaving, the automobile's advent, and the Hubbells' relationship with the Fred Harvey Company. She also describes the Hubbell family's role in providing Navajo and Hopi demonstrators for world's fairs and other events and in supplying museums with Native artifacts. Acknowledging the criticism aimed at the Hubbell family for taking advantage of Navajo clients, Cottam shows the family's strengths: their integrity as business operators and the warm friendships they developed with customers and with the artists, writers, archaeologists, politicians, and tourists attracted to Navajo country by its unparalleled landscapes and fascinating peoples. Cottam traces the preservation efforts of Hubbell's daughter-in-law after the Great Depression and World War II fundamentally altered the trading post business, and concludes with the post's transition to its present status as a National Park Service historic site.
