This is a full-text English translation of Jin Gui Yao Lue, a classic book of traditional Chinese medicine. It is the oldest clinical book dedicated to internal, external, gynecological and obstetrical diseases. It is also the first medical book on differential diagnosis of diseases and symptoms, along with treatment and prescriptions. This book was originally written by Zhang Zhongjing (Zhang Ji) (150-219 CE), an eminent Chinese physician in the Eastern Han dynasty. The book consists of 25 chapters. The first chapter serves as an introduction. Chapters 2-22 discuss the diagnosis and treatment of sixty diseases, involving internal medicine, external medicine, and gynecology & obstetrics. Chapter 23 discusses emergency treatments. Chapters 24 and 25 discuss food contraindications (fowls, beasts, fruits, vegetables and grains) and treatment. The text can serve as a reference for education, research and clinical practice.

and grains) and treatment. The text can serve as a reference for education, research and clinical practice.

A major new translation of the Chinese classic Shang Han Lun by scholar and medical doctor Guohui Liu makes this foundational text fully accessible to English speaking clinicians for the first time. Extensive study and research underpins the translation; the author's understanding of both classical and modern Chinese enables him to interpret fully the ancient work within the theory of Chinese medicine. An extensive commentary explains the translation, the difficulties with the text, how it has been subsequently translated and expands on the theory laid out in the original text to reach an understanding that can be applied in the clinic for diagnosis and treatment. The value of this classic text lies primarily in its establishment of a basic framework for differentiation and treatment, but it also presents 112 formulas and 88 medicinal substances, which are commonly applied in clinical work for various conditions. In this edition, the 112 formulas are fully explained in the context of the clinical experiences of well-known ancient and modern doctors, and they are also laid out in two appendices, cross referenced to the text.

Internationally renowned Dr. Huang has written over ten herbal textbooks compiling his personal views and clinical experience of indispensable and useful formulas of Chinese medicine. This book compares and analyzes the relative terms from the Discussion on Cold Damage (Shang Han Lun) and the Essential Prescriptions of the Golden Cabinet, (Jin Gui Yao Lue) in combination with the clinical experiences of Dr. Huang. It discusses the clinical applications and indications for 50 medicinals that were frequently used by ancient doctor Zhang Zhong-jing.

This illustrated history is a comprehensive introduction to Chinese healing practices across time and cultures. Global contributions from 58 scholars in archaeology, history, anthropology, religion, and medicine make this a vital resource for those working in East Asian or world history, medical history, anthropology, biomedicine, and healing arts.

This revised edition of Maclean's classic Clinical Handbook of Chinese Herbs is an extensive and detailed guide to the medicinal properties of traditional Chinese herbs, and how they should be prescribed in today's medical practice. The handbook employs comparative charts to help clinicians to select the optimal medicinals for their patients. Each table outlines the characteristics of a group of herbs, including extensive indications with relative strengths of action and function,

the domain, flavour, nature, and dosage guidelines. The book also caters for special circumstances in health that may alter a patient's requirements, with appendices giving need-to-know instructions for a number of specific cases. Easy-to-use and comprehensive, the handbook will facilitate efficient comparative reference, as well as detailing the fine points of discrimination.

The Shang Han Lun (On Cold Damage) is among the oldest surviving, the most copiously annotated and the most revered of Chinas traditional medical texts. Of all of Chinas early medical classics, the Shang Han Lun is undoubtedly the one with the greatest relevance to the modern practice of Chinese medicine, and the one most deserving of Western attention. It was the first book to attempt to incorporate medicinal therapy into the medicine of systematic correspondences and channels and network vessels. Far ahead of its time in both theory and practice, it is not surprising that the prescriptions it contains comprise an important part of todays medicinal formulary.
